Please enter the listed preliminary amendments to the Request For Continued Examination filed May 2, 2005. Applicants have amended independent claims 1, 15, 18, and 24 to include the features of generating a desired directory extension, and implementing the desired directory extension through an interface of an aggregatable object. Support for these amendments can be found in the specification of the application as filed at page 14, lines 2-10, for example. It is respectfully submitted that none of the prior art of record teaches or suggests such features. An early notice of allowance is respectfully requested.
